How Moov Parcel Sells: The Consultative Framework

Moov Parcel was invented to help e-commerce SMEs be more productive through proprietary software and multi-carrier solutions.

OUR PURPOSE

Empowering E-Commerce SMEs

Moov Parcel exists to make growing online retailers more productive.

- ✓ Eliminates manual 1-by-1 booking and customer service friction.
- ✓ Increases dispatch efficiency and stops mis-delivery errors.
- ✓ Gives growing brands the collective power and tools normally reserved for retail giants.

Core Mission: Helping online retailers ship faster, smarter, and with fewer mistakes.

PROPRIETARY TECHNOLOGY

Moov Ninja (150+ Channels)

Our cloud order management software is proprietary, owned by ourselves, and given to our shipping clients at no extra cost.

- ✓ Direct connections to Shopify, TikTok Shop, Amazon, eBay, WooCommerce, etc.
- ✓ Automated batch label printing eliminates repetitive manual re-keying.
- ✓ Allows retailers to expand onto new sales channels easily.

Software Benefit: Enterprise order management with zero software subscription fees.

MULTI-CARRIER SOLUTIONS

DPD, DHL, InPost & UPS

We maintain primary relationships with the UK's leading parcel carriers:

- ✓ **DPD:** Domestic next-day & timed delivery excellence.
- ✓ **DHL:** Global express international & cross-border eCommerce.
- ✓ **InPost:** Automated national locker network & drop-to-shop.
- ✓ **UPS:** Domestic parcel and worldwide commercial freight.

Multi-Carrier Value: Multiple carrier choices managed seamlessly on a single invoice.

PRIMARY CARRIER RELATIONSHIPS: DPD · DHL · INPOST · UPS

Proprietary Technology: Moov Ninja (150+ Direct Integrations)

• OUR COMPETITIVE EDGE

What Makes Moov Parcel Different

We do not sell as a low-cost postage reseller. We combine proprietary technology with multi-carrier flexibility and hands-on service.

1. Proprietary Free Software (Moov Ninja)

Unlike brokers who offer only rate sheets, we give our customers our own proprietary order management system. It connects into 150+ sales platforms, eliminates 1-by-1 manual typing, stops mis-delivery errors, and costs our shipping clients nothing.

2. True Multi-Carrier Choice on One Invoice

Instead of locking customers into a single courier, we offer direct access to DPD, DHL, InPost, and UPS. Customers get the right carrier for each parcel format (small packet, standard carton, locker, international) with a single weekly invoice.

3. Carrier Switching for Better Collection Times

If a merchant is stuck with an early collection time (e.g. 2:00 or 2:30pm) that cuts off afternoon sales, we can switch them to a different carrier in our network whose local round supports a later collection time, plus InPost options for late orders.

4. Exceptional Customer Service from Real People

Our customers don't sit in automated phone queues or argue with chatbots. Our team answers straight away (0113 322 4101) with real UK logistics experts who resolve parcel delays, tracking queries, and carrier issues on their behalf.

OUR CORE BRAND STANDARD: *"Don't just deliver parcels... Moov them." • "Don't be cheap, be cost-effective."*

• COMMERCIAL METHODOLOGY

The Consultative Sales Journey: Why We Demo

How we combine inbound leads and outbound calling with live software demonstrations to convert at 2.5x higher rates.

STEP 01

Outbound Hook & Decision Maker

A mixture of inbound leads (email marketing & web) and outbound calls.

- ✓ Reach the decision maker (Owner, Director, Ops Manager).
- ✓ Acknowledge interruption and state our productivity purpose.
- ✓ Gain agreement to explore their current packing bench setup.

STEP 02

Deep 9-Point Discovery

Dig up as much operational detail as possible:

- ✓ Volumes, destinations, B2B vs B2C.
- ✓ Sizes, deadweights, min/max, hazmat.
- ✓ Current booking software & WMS stack.
- ✓ Couriers, required collection times & pain points.

STEP 03

The Live Software Demo

Crucial Pivot: Never send blind rates without a demonstration.

- ✓ Show Moov Ninja live on a 15-minute screen share.
- ✓ Demonstrate batch printing, packing station & shipping rules.
- ✓ **Research:** Live demos lift B2B win rates by up to 68%.

STEP 04

Rates, Agreement & Handover

Present tailored proposal and execute clean handover:

- ✓ Send transparent rate proposal matching their profile.
- ✓ Follow up until agreement is secured.
- ✓ Clean handover to onboarding for 7–10 day setup.

THE SALES CONVERSION RULE: "Demonstrating software live transforms an intangible rate quote into an indispensable operational workflow."

• DISCOVERY EXECUTION

The 9 Core Discovery Areas

What the sales representative must understand from the business before presenting a proposal.

1. PARCEL VOLUMES

"How many parcels do you send daily and weekly?"

Check baseline volume and peak surge multiples (Black Friday/Q4).

2. DESTINATIONS

"Where do you send them to?"

UK domestic mainland, Scottish Highlands/Islands, Northern Ireland, Europe, or ROW.

3. RECIPIENT PROFILE

"Are they businesses or consumers?"

B2C residential addresses & lockers vs B2B trade retail addresses.

4. PARCEL SIZES & WEIGHTS

"What are the sizes and deadweights?"

Typical dimensions, minimums, maximums, and volumetric profiles.

5. INTERNATIONAL SHIPPING

"Do you send internationally?"

European delivery (IOSS setup) or Rest of World express/standard freight.

6. HAZARDOUS / SPECIAL CARGO

"Do you send anything hazardous?"

Liquids, creams, glass, aerosols, batteries, or goods outside the norm.

7. PACKAGING REQUIREMENTS

"Any specific packaging rules?"

Poly mailer bags, custom boxes, crash-locks, or 6x4 thermal label printers.

8. SOFTWARE & BOOKING

"How do you book parcels now?"

1-by-1 manual entry? Channels (Shopify, Amazon, TikTok)? Any WMS system?

9. COURIERS, CUT-OFFS & PAIN

"What collection time do you need?"

Current couriers, required vehicle collection time, and challenges (price, service, damage).

DISCOVERY OBJECTIVE: Gather complete operational context so you can pivot naturally into booking the live Moov Ninja demo.

• SOFTWARE SHOWCASE // LIVE DEMONSTRATION

Why We Demo: The 9 Problems Moov Ninja Solves

Research proves live product demonstrations convert 2.5x higher because prospects see tangible workflow automation.

1. MULTI-CHANNEL CONNECTIVITY

Connects 150+ Marketplaces

Shopify, TikTok Shop, Amazon, eBay in one view. Solves logging into multiple separate web portals.

2. 1-CLICK BATCH SHIPPING

Print 100 Labels in Seconds

Simultaneously prints shipping labels and pick lists. Solves slow 1-by-1 manual typing and address errors.

3. INTERNAL PACKING STATION

Barcode Verification at Bench

Scan verification confirms each item in the box before printing. Solves packing errors and wrong items sent.

4. MULTI-PARCEL INTERNATIONAL

Multi-Box Overseas Shipments

Specialized workflow for multi-carton exports that competitor shipping software cannot support or breaks on.

5. CARRIER ERROR MESSAGE VISIBILITY

Actionable Real-Time Courier Logs

Displays exact courier error codes (bad postcodes, tax IDs) so staff fix and print labels on the spot.

6. EASY INTERNATIONAL SHIPPING

Customs & IOSS Made Simple

Electronic commercial invoices and seamless EU IOSS compliance. Solves international border holds.

7. NINJA STATUS GAMIFICATION

Visual Problem Indicators

Engaging visual Ninjas alert warehouse staff immediately when exceptions, address errors, or delays occur.

8. DIRECT-TO-PRINTER INTEGRATION

Integrated Printer Software

Directly sends labels to 6x4 Zebra thermal printers without downloading PDFs or opening print dialogs.

9. SMART SHIPPING RULES ENGINE

Automated Carrier Selection

Chooses the right carrier (DPD, DHL, InPost, UPS) automatically based on weight, dimensions, price, or postcode.

REP DEMO SCRIPT: *"Anyone can email a list of prices. Let me show you 10 minutes on a quick screen share of how Moov Ninja actually automates your packing bench and rules."*

• CLIENT ONBOARDING // HANDOVER TO LIVE DISPATCH

The 7–10 Day Guided Onboarding Journey

How sales executes a clean handover to our dedicated onboarding team who manage the 7–10 day setup process.

PHASE 01

Welcome to the Team

- ✓ Warm welcome into the Moov team by their dedicated specialist.
- ✓ Review discovery notes to confirm order volumes & operational needs.
- ✓ Clear lines of communication established with a named contact.

PHASE 02

IT & Software Setup

- ✓ Moov Ninja accounts provisioned with secure IT credentials.
- ✓ Connect Shopify, TikTok Shop, Amazon, or WooCommerce stores.
- ✓ If using a WMS, establish integration or automated file sync.

PHASE 03

Courier Account Applications

- ✓ Moov applies for dedicated sub-accounts with DPD, DHL, InPost, or UPS.
- ✓ Direct coordination with carrier depot operations.
- ✓ Collection rounds, driver routes, and vehicle timings booked.

PHASE 04

Workflow Training Call

- ✓ Dedicated 1-on-1 walkthrough call showing staff how to use Moov Ninja.
- ✓ Configure box defaults, 6x4 thermal printer output & carrier routing.
- ✓ Tailor custom workflows that make daily packing faster and easier.

PHASE 05

Agreed Go-Live Date

- ✓ Firm, mutually agreed go-live date locked in with warehouse & driver.
- ✓ First live collection generated from the software and collected by courier.
- ✓ Dedicated team actively tracks collection and hub scanning in real time.

PHASE 06

Follow-Up Action & Support

- ✓ Proactive post-launch check-in call to verify delivery scan rates.
- ✓ Review invoice accuracy and answer any packing team questions.
- ✓ Seamless transition to our permanent Yorkshire support team.

THE 7–10 DAY ONBOARDING COMMITMENT

We take the time to set up IT properly, train your warehouse team, and secure courier accounts so your go-live is 100% smooth.
